Celebrate Metro Success!

Did you know---

Metro Rail is the most successful route in the whole NFTA system!

The line is only 6.2 miles long, but

---supports three times the rides than does the next busiest bus route

--carries five times more passengers per hour of operation than does the next busiest bus route

--operates on time, all the time

--travels at 50+mph when in the subway section

--carries crowds easily, for special events and sports

--attracts riders who choose to use the train rather than drive.

And all this for a light rail line which serves the central and northeast sections of the city! Just imagine what Metro Rail will do when expanded to the airport or to the Southtowns...

Come see CRT at Citybration, June 24, and celebrate!

CRT seeks to improve bus transit and to expand rail transit for all of Western New York through citizen involvement and education.
